## OBJECTIVE

An extremely motivated engineer with 5+ years of industry experience seeking a challenging entry-level DevOps role in Bangalore.

## EDUCATION AND SKILLS

**M.Tech., Software Engineering, BITS Pilani University**, December 2016
**B.Sc., Electronics, BMS College for Women**, March 2012.
**Skills:** Build and Release, Continuous Integration, DevOps, Unix Administration, SCM, Agile.
**Technologies:** SCM Clear case, Jenkins, XL Deploy and Release – Xebia Labs, IBM Urban Code Deploy, Unix/Linux, and GIT.

## CERTIFICATIONS

**SCM admin and Unix Admin** - L1 Certification from Wipro

**Jenkins, GIT & Docker** - Online training from "IntelliQ IT Solutions"

## CAREER SUMMARY

- Senior Project Engineer with Wipro Technologies.
- 5.5 years of hands-on experience in Software Configuration Management (SCM – Clear case Build and Release), IBM Urban Code Deploy & Release, GIT, and Unix/Linux admin.
- Setup and owned Builds, Configuration Management, Continuous Integration (CI), Deployment, and Application Monitoring.
- Managed client relationships, collaborating with the Development and Test teams to ensure high-quality on-time deliverables.
- Responsible for technical guidance and support to the Delivery Management team.
- Scrum Master and Team Lead for Ericcson's Delivery Management team.

## EXPERIENCE

**Client: Ericsson**                                                                       September 2012 - February 2017
**ENIQ Stats Delivery Management Team**

- Setup and owned nightly automated builds using Jenkins to perform installs, upgrades & regressions
- Setup and owned Continuous Integration (CI) done on a Sprint by Sprint basis.
- Collaborated with the Development team to ensure new deliverables are ready for the next nightly builds.
- Collaborated with the Development teams to triage and resolve issues found during the nightly builds.
- Authored sprint-based documents related to installation, upgrades, and issues to aid different testing teams.
- Managed our client relationship, ensuring high quality and on-time deliverables.
- **Technologies:** CM Clear case, Jenkins, Confluence pages, Kanban Board, and UNIX/Linux.

## ACHIEVEMENTS

"Outstanding Performance and Exceptional Contribution in ENIQ Project" for two consecutive years from Ericsson
